

Installation Guide

— Philips Master LED SON-T lamp

Please take the time to read this installation guide. The guide contains important information and notes regarding the installation and operation.

IMPORTANT!

- The product is designed to fit in standard IEC compliant E27/E40 lamp holders.
- Always switch off the power supply before commencing work!
- Please read the installation instructions carefully to ensure safety.
- The product is not dimmable.
- The product is not compatible to use with electronic ballast.
- This product is not used to mains voltage directly.
- Suitable for use in operating temperature range between -40°C to $+45^{\circ}\text{C}$.
- Do not change the structure or any components of the product to ensure safety.
- The product should be installed by professional electrician.
- Perform inspection before installation to ensure the luminaire and lamp holder are in good condition to carry the weight and performance of the product.
- The product fulfills IP40 requirements, outdoor applications require the lamps to be used in luminaires with suitable IP rating.
- Use in horizontal $\pm 15^{\circ}$ burning position only.
- Please do not apply the product in applications which contains emergency or/and explosive proof luminaires.
- The total system performance may vary depending on the lighting/luminaire system.
- For latest information, please refer to www.philips.com/lighting.
- In case of doubt, please consult Signify representative.
- If LED lamp is being use within luminaire, for lamp with E27 cap, the minimum dimensions requirement on lamp compartment is (Hx \emptyset) 220mmx 170mm, for lamp with E40 cap, the minimum dimensions requirement on lamp compartment is (Hx \emptyset) 280mmx 185mm. If the luminaire comes with a glass/cover, it's recommended to detach it for optimal light efficiency and product lifetime. Please check the tc temperature in application guide for best performance.
- Do not install any lamp which is deformed or damaged from transportation or handling.
- Compatible with EM ballasts 50Hz only.
- Keep lamps clear during application (esp. no oil contamination on glass tube), to ensure good lamp performance.
- Do not use in open luminaires

DISCLAIMER:

Signify disclaims liability for any direct, indirect or incidental damages in case of installation performed either not according to this guide or not performed by a professional electrician.
